Mike GG 2 years agoAh my bad I wanted to make one, but i made a mistake tree times and had to reinstall the game every single time and i gave up on recording and installed the game without recording and i forgot about it and i tought i had made this video.. You'll need Japanese locale to run most Japanese games, including Artificial Academy 2.. Hi there~! In the comments you said you made a video on how to actually install the game itself, (i have windows 10 so it's been a trip figuring out how to download it right) but I haven't been able to find it TvT has it been deleted? And if not, could you link me to it? I've been searching for a good 20 minutes but no luck. e828bfe731 [Free Basic Programming Software For Mac](#)
